Your efficiency, health and happiness, depend to a great extent in keeping your feet in a state of health.

Corns, callouses, bunions, ingrown toe-nails, weak arches, weak ankles, tired, burning, aching feet, in the majority of cases, is the direct result of poorly fitted shoes.

Whether you now suffer or not, for your own satisfaction call in and try a pair on, you will be under no obligation to buy, but we firmly believe you, too, will advocate better fitting shoes, for health, comfort and happiness.
